DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to a method for prevention or remediation of surgical adhesions comprising antibodies to TIMP-1.

Group II, claim(s) 1 and 3, drawn to a method for prevention or remediation of surgical adhesions comprising TIMP-1 antisense oligonucleotides.

Group III, claim(s) 4-9, drawn to an antibody to TIMP-1 and a pharmaceutical formulation thereof.

Group IV, claim(s) 10, drawn to a method of determining whether a human subject is predisposed to develop adhesions comprising measuring the amount of TIMP-1 in the subject.

Note: Each claim will be examined only to the extent of the elected invention.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Richards et al US Patent No. 5,744,442 teach an antibody directed to TIMP-1.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
